AI ENGINEERING · GLOBAL DELIVERY

Engineering intelligence for ambitious businesses.

AI agents, computer vision and enterprise software, designed, built and run by one accountable team across three continents.

QUIBO TECHNOLOGIES

We turn AI from a slide into a system that runs.

Quibo is an AI and software engineering company headquartered in Chennai, with offices in Dubai and Stratford, Canada. We partner with growing companies and established enterprises to **design, build and operate** the intelligent systems that move their business forward.

30+
projects delivered to production

WHY NOW

Software used to record the work. Now it can do the work.

SHIFT 01

From chat to agents

AI that acts inside your systems, with people approving what matters.

SHIFT 02

From dashboards to decisions

Cameras and data that trigger the next step, not just a report.

SHIFT 03

From pilots to production

The winners measure, govern and scale. That is where we focus.

HOW WE ENGAGE

Start small. Prove it. Then scale.

PHASE 01 · 2 WEEKS

Proof sprint

Fixed scope, on your own data, with success measures agreed up front.

PHASE 02 · 6–8 WEEKS

Pilot

Live on real work with people in the loop, measured weekly against a baseline.

PHASE 03 · ONGOING

Scale & operate

More volume and responsibility as trust grows, with monitoring and support.

NEXT STEP

What will you hand to AI first?

A 30-minute call with our engineers. We will tell you honestly what is achievable, and propose a two-week proof sprint on your own data.
